COMMUNITY NEWSLETTER

SUMMER 2025 EDITION

A MESSAGE FROM OUR CEO

Dear Troilus Community,

Welcome to the Summer 2025 edition of our Community Newsletter.

Over the past year, our team has continued to make meaningful progress on the Troilus Project — progress that brings us closer to our shared goal of developing a responsible and sustainable mining operation.

One of the most important milestones we've achieved is the official submission of our Environmental and Social Impact Assessment (ESIA) to both the provincial and federal governments in June. This submission reflects more than five years of rigorous environmental studies, technical planning, and above all, collaboration with local and Indigenous communities. Your input has helped shape this assessment, and we are deeply grateful for your engagement, insight, and trust throughout this process.

We've also strengthened our leadership team to ensure we are well prepared for the next phase of development. I'm pleased to welcome three new senior team members: Denis Rivard, Executive Vice President of Projects; Chris Sharpe, Vice President of Technical Services; and Andy Fortin, Vice President of Operations and General Manager of the Troilus Mine. Each brings valuable experience and a strong commitment to community-centered development.

As we move forward, our focus remains on building lasting relationships and ensuring local communities are well positioned to benefit from the opportunities ahead. To support this, we've launched a new website — www.troilustogether.com — designed to serve as a platform for communication and transparency. Here, you'll find project updates, employment and procurement information, upcoming events, and opportunities to share feedback.

Thank you for being such an important part of the Troilus journey. We're proud to be part of your community, and we look forward to continuing to work together.

Warm regards,

A handwritten signature in black ink, appearing to read "Justin Reid".

**Justin Reid, CEO & Director
Troilus Gold Corp.**

LATEST DEVELOPMENTS AT TROILUS

ENVIRONMENTAL AND SOCIAL IMPACT STUDY

In June 2025, we officially submitted the Environmental and Social Impact Assessment (ESIA) for the Troilus Project to the Impact Assessment Agency of Canada (IAAC) and Québec's Ministry of the Environment, the Fight Against Climate Change, Wildlife and Parks (MELCCFP). The ESIA is an important regulatory step that evaluates the potential effects of the Project on the environment and surrounding communities.

This milestone could not have been reached without the valuable input and involvement of local residents, Indigenous partners, and community stakeholders. Your voices helped guide the development of the ESIA, ensuring that the concerns, values, and priorities of the region are reflected throughout the process. We thank you for your continued engagement and support.

The impact study is the result of more than five years of review and work, including:

- **Community Consultations**
- **Environmental Studies**
- **Technical Analysis**

ESIA NEXT STEPS

Now that the ESIA is officially submitted, the formal review process begins with the COMEX at the provincial level under the James Bay and Northern Quebec Agreement (JBNQA) and the IAAC at the federal level. We will continue to share information as the ESIA review process moves forward.

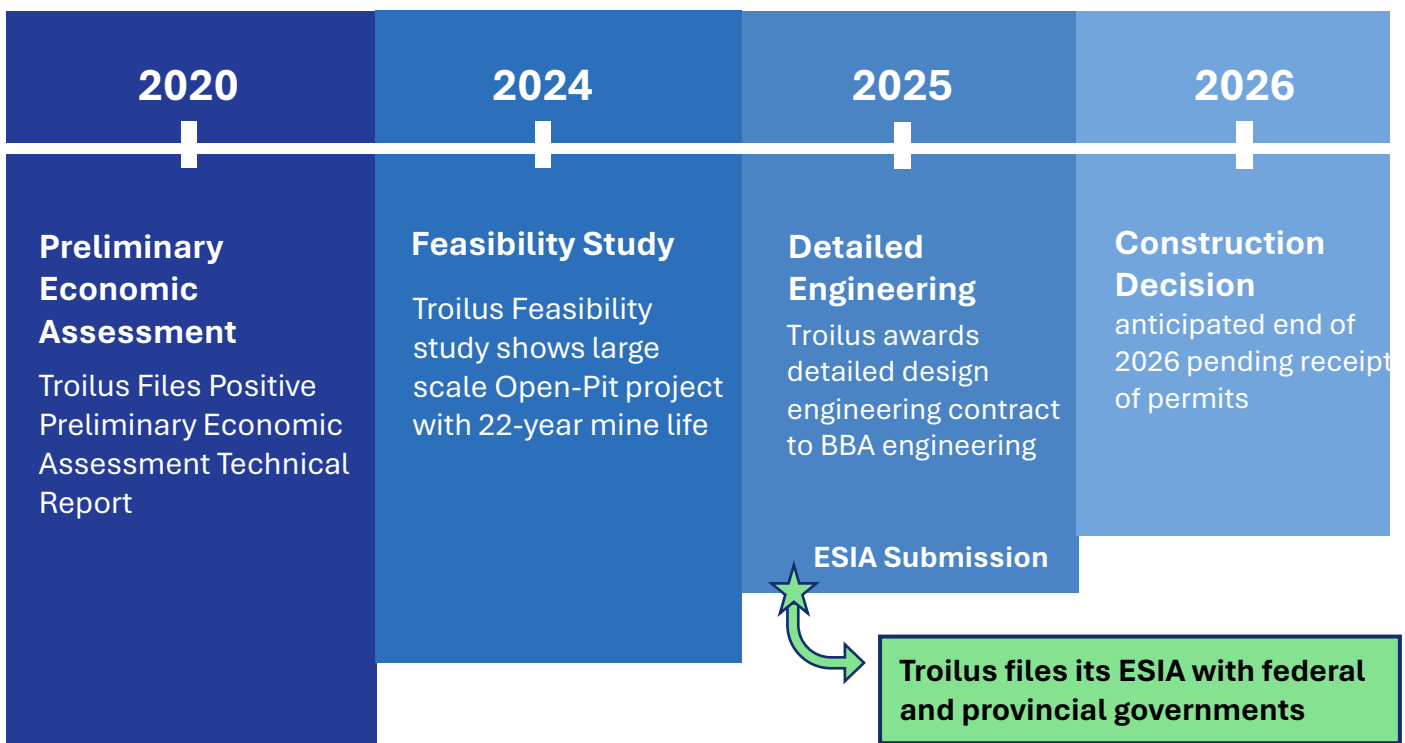

Scan to learn more about the ESIA submission and read the ESIA summary document

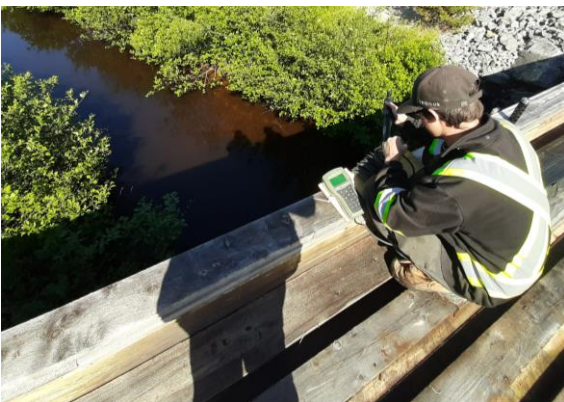

EVERY MILESTONE BRINGS US CLOSER TO CONSTRUCTION

We're ensuring each decision is backed by thorough technical data and environmental understanding before construction can begin.

Each technical study builds on the last, increasing the level of detail, reducing uncertainty, and moving the project closer to construction.

We are committed to reducing risks and improving accuracy at every stage, for a clearer and more accurate understanding of the project and enabling a well-informed construction decision.

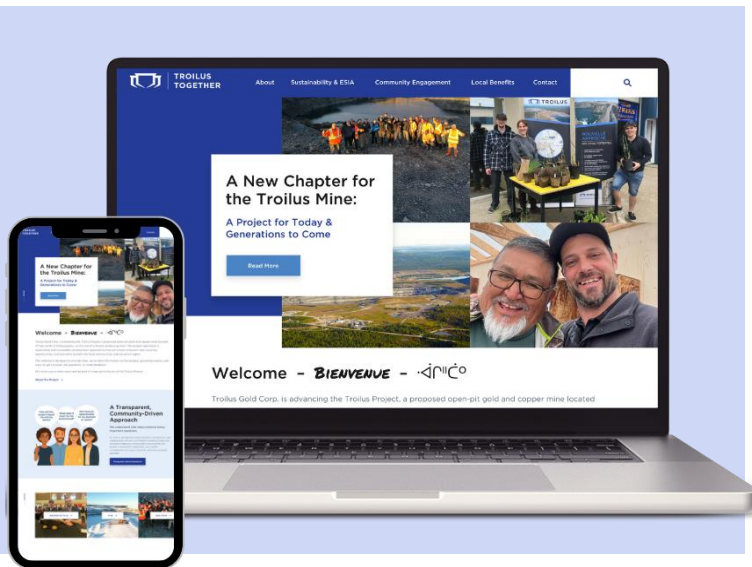

A NEW WEBSITE FOR OUR COMMUNITY

We're excited to announce the launch of TroilusTogether.com, a new website dedicated entirely to our local communities.

This platform was created to support open communication, provide easy access to information, and strengthen our collaboration as the Troilus Project moves forward.

On the website, you'll find regular project updates, answers to frequently asked questions, and details about upcoming milestones. It's also a place to learn about employment and procurement opportunities as they become available.

We've also made it easy to get involved. Community members can now submit sponsorship and donation requests, provide feedback, and stay informed about local events we're supporting or organizing.

TroilusTogether.com is your platform - built to help keep you connected and informed every step of the way.

NEW ADDITIONS TO OUR TEAM

As the Troilus Project moves closer to construction, we've welcomed new members to our leadership and community teams - each bringing experience and dedication to ensuring the success of the project and its positive impact on our region.

Andy Fortin

**VP of Operations and
General Manager of the
Troilus Mine**

Andy brings more than 30 years of operational experience and will oversee the safe and efficient development of the mine as we transition into the construction and production phases.

Chris Sharpe

**Vice President,
Technical Services**

Chris will lead the technical planning of the Project. His background in mine engineering and project development will help us deliver a strong, efficient operation aligned with environmental and community goals.

Denis Rivard

**Executive
Vice President, Projects**

Denis has extensive experience managing large-scale infrastructure and mining projects across Quebec. He will oversee the full delivery of the Troilus Project from engineering to execution.

WELCOME ERROL MIANC SUM COMMUNITY LIAISON OFFICER

We're also very pleased to welcome Errol Mianscum as our new Cree Community Liaison Officer. Errol brings a wealth of experience in community engagement, governance, and project coordination.

As a bridge between the Troilus team and our host communities, Errol will work closely with Tallymen, land users, the Cree Nation Government, CNM Council and leadership, and local Cree businesses. His role is focused on listening, building strong relationships, and helping ensure community voices continue to shape the future of the Troilus Project.

TROILUS IN THE COMMUNITY

FESTIVAL FOLIFRETS

This past winter, our team was proud to take part in the vibrant Festival Folifrets in Chibougamau. We joined the celebrations by cheering on the parade and welcoming visitors to an open house at our local office. The event included food, conversation, and displays about the Troilus Project - a great chance to connect, answer questions, and celebrate winter together as a community.

MISTISSINI TRAPPERS AT NIJHC

Troilus was honoured to sponsor the Mistissini Trappers Junior team at this year's National Indigenous Junior Hockey Championships (NIJHC) in Vaughan, Ontario.

This national tournament provides an important stage for young Indigenous athletes to showcase their talent and strengthen community pride through sport. We're proud to support the Trappers in their journey and to help create more opportunities for youth to shine on and off the ice.

TROILUS IN THE COMMUNITY

1st ANNUAL MISTISSINI SEEDLING GIVEAWAY

In May 2025, Troilus was proud to host our first-ever Seedling Giveaway at the Troilus Office in Mississauga.

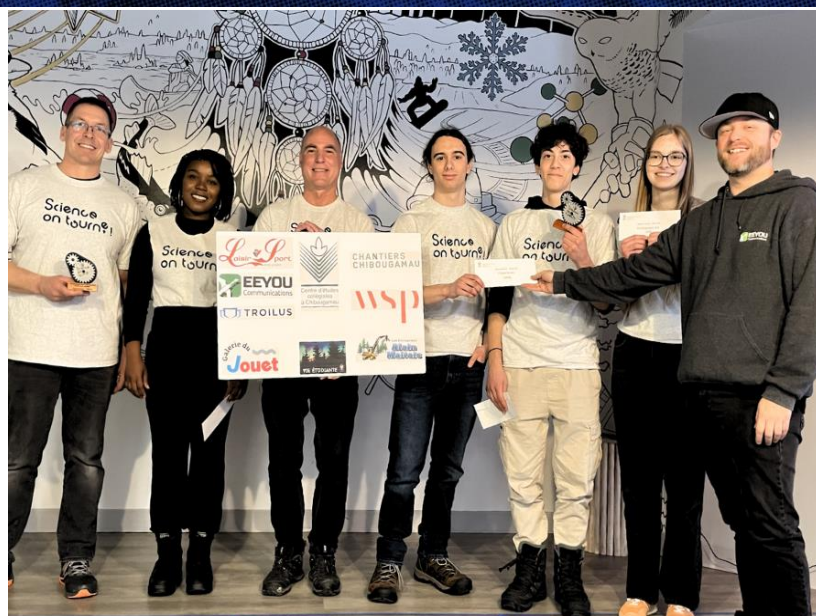

More than 50 community members joined us to learn about the Troilus Project and pick up a variety of seedlings to plant at home - including rhubarb, thyme, strawberries, and mint. It was a great opportunity to connect with local residents, share project updates, and promote home gardening and food sustainability.

We're grateful to everyone who stopped by and look forward to continuing these kinds of grassroots initiatives together.

TROILUS IN THE COMMUNITY

SCIENCE, ON TOURNE

Troilus proudly sponsored the 32nd edition of Science, on tourne! in Chibougamau - a creative challenge where students designed wind-powered autonomous vehicles to travel the furthest distance. We were proud to support local education and encourage the innovation of tomorrow's leaders.

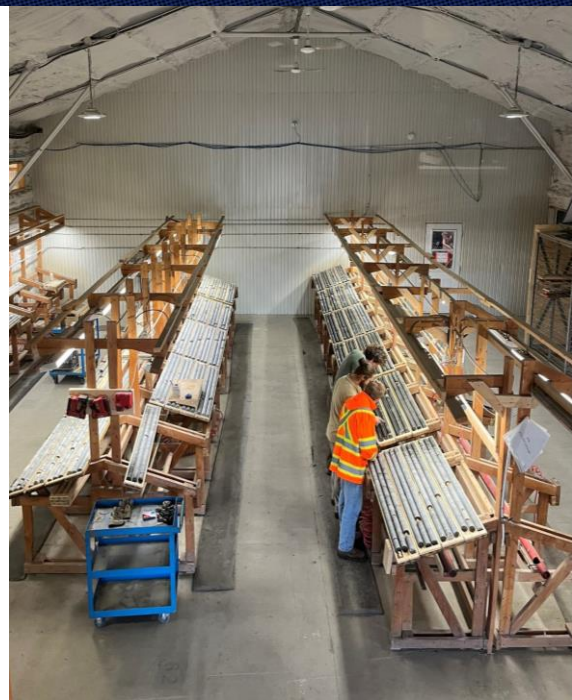

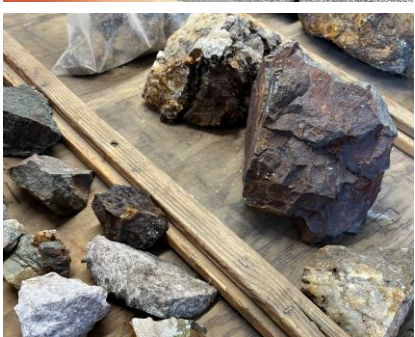

KIWANIS CLUB SEEDLING GIVEAWAY

In May 2025, Troilus partnered with the Kiwanis Club for their annual Seedling Giveaway. Together, we provided 900 seedlings of fruits, vegetables, and plants to residents of Chibougamau and Chapais - helping promote local food security and sustainable gardening initiatives.

CHIBOUGAMAU MINOR HOCKEY TOURNAMENT

Troilus was proud to support the 46th Chibougamau Minor Hockey Tournament. This annual event celebrates young athletes across Northern Quebec, welcoming 28 teams and over 900 players between the ages of 5 and 17.
